

One Source. Multiple Solutions.

Why Crawford Packaging is the
E-commerce Solution Partner for you.

Crawford
Packaging

At Crawford Packaging, we simplify, streamline, and elevate your e-commerce operations, ensuring your products reach customers safely, efficiently, and beautifully.

Your E-commerce Solution Partner.

In the evolving world of e-commerce, the need for quality, integrated packaging solutions is paramount. At Crawford Packaging, we understand this. As your single source supplier, we offer tailor-made solutions, blending state-of-the-art equipment, a vast range of consumables, and unmatched technical support, ensuring your e-commerce operations are efficient, streamlined, and reliable.

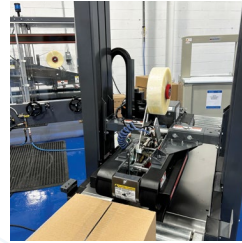

Equipment: Customized for Your Needs

AUTOMATIC MAILER SYSTEMS

From poly mailers to bubble mailers, you can now pack your products efficiently with our robust and flexible automatic mailer systems.

CASE SEALERS

Enhance and expedite your case sealing processes and achieve consistency in your packaging process with semi- or fully automated solutions.

SHRINK WRAPPING

Achieve tight seals on individual or bulk items with shrink wrapping, enhancing protection, and showcasing product clarity.

CASE ERECTORS

Elevate your productivity with our range of automatic and semi-automatic case erectors, available in both standard and customizable designs.

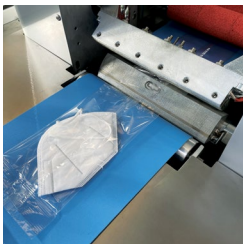

SHRINK BUNDLERS

Enhance performance with our robust and adaptable shrink bundling equipment, which is configurable for multiple product lines.

VOID FILL MACHINES

Choose from our diverse range of void fill machines for swift and efficient packaging, enhancing throughput while minimizing your environmental footprint.

FLOW WRAPPING

Discover our versatile, user-friendly, high-quality horizontal flow wrapping solutions, suitable for diverse applications of all shapes and sizes.

STRAPPING MACHINES

Explore our wide range of automatic and semi-automatic strapping machines, designed for different package sizes and weights.

Equipment: Customized for Your Needs (cont'd)

BAGGING MACHINES

Enjoy maximum adaptability with our compact bag forming and filling machines, suitable for both manual and automatic product input.

AUTONOMOUS FORKLIFTS

Achieve 24/7 productivity with our smart, self-driving forklifts. Optimize your workflows, reduce damages, and improve workplace safety.

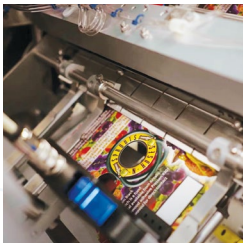

STRETCH WRAP MACHINES

Explore our wide range of semi- to fully automated stretch wrapping machines, accommodating varied product sizes, and wrapping needs.

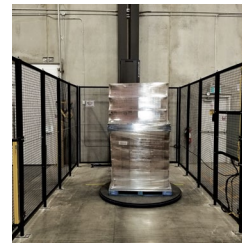

CONVEYORS

Select from a diverse array of flexible and robust conveyor solutions that seamlessly integrate into your operations.

LABEL APPLICATORS

Achieve precise label placements on various packaging with our range of quality label applicators.

MACHINE SAFETY GUARDING

Boost productivity, improve workplace ergonomics, and reduce injuries with our versatile machine safety guarding and enclosures.

INDUSTRIAL PRINTERS

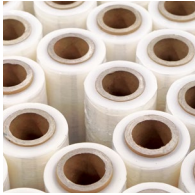

Simplify and streamline your product coding, marking, and labeling operations with our flexible printer solutions.

CARTONING MACHINES

Explore our selection of versatile, low-maintenance, and quick changeover cartoning machines, engineered to boost your productivity and optimize performance.

Consumables: A Broad Spectrum to Choose From

STRETCH FILM

Discover our range of stretch films, offering high-performance options in multiple gauges, including sustainable choices with PCR content, all customized to meet your specific load containment requirements.

TAPES

Explore our extensive tape selection, which includes everything from packaging to specialty tapes, featuring the latest sustainable innovations, and offering various adhesive strengths and types.

PROTECTIVE PACKAGING

From traditional to sustainable choices, we provide a diverse range of protective packaging tailored for product safety and environmental concerns.

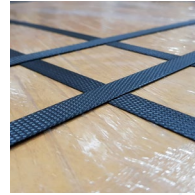

SHRINK FILM

We offer a variety of shrink film types for both individual and bulk product packaging, ensuring optimal protection regardless of your application.

MAILERS

We offer a diverse range of mailers, including poly mailers, bubble mailers, and paper mailers, with various protective layers, in different sizes and shapes, all customized to meet your specific shipping needs.

STRAPPING

We provide a wide range of strapping materials to suit your package security needs, from polyester, and polypropylene to steel.

CORRUGATE

We provide boxes in various dimensions, suitable for a wide range of applications.

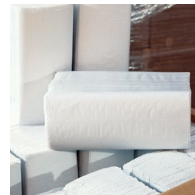

THERMAL TRANSFER LABELS

Explore our diverse range of packaging labelling options, including thermal transfer and direct thermal labels designed to resonate with your particular applications.

VOID FILL

Explore our void fill options—reliable solutions to prevent shifting during transport, including sustainable choices that reduce your environmental impact.

OTHER FACILITY SUPPLIES

Explore our essential facility supplies including warehouse gloves, garbage bags, markers, towels, toilet paper, tissues, photocopy paper, ice melt, and more, for a seamless and clean workplace.

Technical Support: Always by Your Side

Our commitment to you goes beyond just products. We stand by our partners, offering support, ensuring smooth operations, swift troubleshooting, solid inventory of spare parts, and constant guidance.

Maintenance and Repair

We provide programs to ensure your equipment runs smoothly, as well as prompt and skilled equipment repair services to ensure minimal downtime and maximum operational efficiency.

Complimentary Process Improvement

We provide complimentary process improvement services to optimize your operations, enhance performance, and uncover hidden costs.

Spare Parts

We maintain an extensive on hand library of spare parts to support your equipment and minimize downtime.

Training

We provide tailored training services for operators and maintenance departments, ensuring they are well-equipped to operate and maintain equipment effectively and safely.
