

PROVIDING PACKAGING SOLUTIONS!

since 1963

GrowPack Net Trays

GrowPack net trays are the newest innovative fresh produce packaging trays in the produce market offering great **saving potentials** while **reducing your carbon footprint**.

GrowPack net trays use up to **50% less plastics** than conventional trays. The mesh design allows for easy washing, reduced waste, and are unique in the produce packaging market.

GrowPack net trays offers the perfect packaging solution for your product. The 3D mesh structure is permeable to air and impresses with its dimensional stability.

Compatible with both **top seal and flow wrap machines**, automate your packaging process.
