

COMBAT RISING LABOUR COSTS WITH AUTOMATION

Crawford
Packaging

Automated Packaging

Automated packaging processes mitigate labour costs and increase production rates. Packaging automation can range from semi-automated solutions to fully integrated packaging lines that form, fill, seal and unitize goods as they come off the production line.

Top 3 Benefits of Automated Packaging

Reduced Labour Costs

Automated packaging allows for the reallocation of valuable labour to areas where it is needed most.

Increased Productivity

Automatic and semi-automatic solutions reduce downtime and increase packaging productivity.

Reduced Waste

Decrease excessive material consumption due to inefficient packaging processes, damage, and human error.

Types of Automation Solutions

Our Packaging Specialist will work with you to develop a custom-tailored automation plan designed to increase throughput and improve costs.

- Stretch Wrappers
- Shrink Wrappers
- Flow Wrappers
- Top Sealers
- Case Sealers
- Case Erectors
- Tape Dispensers
- Void Fill Machines
- Strapping Machines
- Labeling Machines
- Printing Machines
- Conveyors

Transitioning to Automation

Our expert automation team gets your new system up and running quickly, and provides hands-on operator training to maintain optimal performance levels.

- Equipment Placement
- Installation & Upgrades
- Training
- Preventative Maintenance

Buy It Right

Financing Program

The Buy It Right Program offers companies the ability to finance their equipment purchase over an extended period of time. The Buy It Right Program allows you to consolidate your equipment financing payments with the packaging material it uses. This allows businesses to avoid large capital costs.

1 Packaging Material

Our Packaging Team will work with you to develop the estimated usage of your new packaging equipment over the length of your contract period. The packaging material purchases will form the basis for your financing plan payments.

2 Packaging Equipment

We use the value of your equipment, and amortize the cost by distributing it across your forecasted packaging material use for the financing period.

3 Program Plan

Once your Buy It Right Program Plan development and packaging machine installation is complete, you are ready to begin packaging products. As you order additional packaging material the financed cost of your new packaging machine is reduced.
